HELD UP.—The eastern portion of our city was thrown into a state of intense excitement on Monday night last, by a disturbance which took place in the Oval, during which W. H. Walton, Esq., accidentally shot a Mr. Nichols in the back of the head. The wound is by no means dangerous.

A difficulty occurred the same night between Mr. Cinnard and John Willis, during which Willis procured a double-barreled shot gun to shoot Cinnard with, but was prevented. The difficulty terminated on the following morning by Cinnard discharging both barrels of a shot gun, charged with buckshot, at Willis, three shot hitting him, one taking effect in the foot, another in the hip, and a third in the back, but the distance between the combatants being about sixty yards, the force of the shot was too far spent for any of them to prove fatal.

Notes on Printing and the Press in Mississippi.

The Vicksburg Sentinel was at one time one of the most brilliant papers in the State. It was owned and edited by one of the ablest men of the first generation in the State. But a most remarkable stability has followed most of them, which has rendered its history and its influence almost unbroken.

The oldest living abolitionist in the State, is Marmaduke Shannon, of the Vicksburg Press. He has been connected with the press for thirty years, and all that time with the same paper. He is a man of indomitable energy and will, and to those matters more than any other, is the success of his journal. The relations existing between him and the other abolitionists were very good.

Natchez, and it was there his first budding genius was divined, and while yet a boy he began to write a son which has since added lustre to the Mississippi press. At the age of twenty-one years he was elected to the legislature from the county of Adams, and was repeatedly re-elected. He afterwards removed to Madison county, and was elected to Congress twice, but was finally defeated in the memorable contest with the late S. S. Prentiss. Next he returned to the tripod, and became editor of the Natchez Free Trader. After the election of President Polk, he removed to New Orleans, and repeatedly contributed to the columns of several of the leading journals of that city. About ten years ago, he removed to Hancock county, in this State, and retired from the press and from politics, directing his attention exclusively to literary pursuits.

The Life and Times of Sam Dale, the Mississippi Partisan, has appeared from his pen, and "The Life of Gen. Quitman," is now in press. He is also engaged on a "History of Mississippi," which we trust his useful life will be spared long enough to finish. Col. Claiborne was always an ardent partisan of the Democratic school, and has contributed in his life time over \$10,000 towards promoting the noble propriety of his party. While his firm and inflexible as a party man, it has been said within that he "never said a rude thing of an opponent, and he never defended one when unjustly assailed."
